01 / BEHIND CLOSED DOORS

They called it obedience. *It felt like fear.*

The sermons were polished.
The prayers were rehearsed.
The truth was something else entirely.

Under the guise of religion - but never true faith - a world of control, silence, and manipulation was unfolding. Questions were punished. Obedience was demanded. Truth was buried under scripture.

Mixed Bag of Crazy is the raw, unfiltered account of a community held together by fear. Behind the pulpit and pews: psychological abuse, criminal acts, and lives unraveling in secret.

When the fallout came, it reached far beyond the people in the room. Families fractured. Innocent people carried the scars. Generations felt the ripple.

But the cracks couldn't stay hidden forever.

What happens when belief becomes a weapon?

When silence becomes complicity?
When the people meant to guide you lead you straight into danger?
